

LUTHERAN SERVICE BOOK

These Amens may be used with the hymns in *Lutheran Service Book*. An index matching each hymn with the appropriate Amen is provided on the second page.

In the case of hymns in a minor key, the final chord is occasionally in the major key. In these instances, the organist will want to play the major chord to conclude the Amen. These hymns are marked on page two with a # or ♯.

For some hymns we recommend that an Amen not be appended. This occurs when:

- an Amen already occurs in the last line of text.
- a chant melody for the Amen is included with the hymn.
- the style of the hymn or canticle suggests that an Amen not be added.
